1.107 Certifications.

In accordance with Section 29 of the Office of Federal Procurement Policy Act (41 U.S.C. 425), as amended by Section 4301 of the Clinger-Cohen Act of

1.108

1996 (Public Law 104–106), a new requirement for a certification by a contractor or offeror may not be included in this chapter unless—

- (a) The certification requirement is specifically imposed by statute; or
- (b) Written justification for such certification is provided to the Administrator for Federal Procurement Policy by the Federal Acquisition Regulatory Council, and the Administrator approves in writing the inclusion of such certification requirement.

[62 FR 44813, Aug. 22, 1997]

1.108 FAR conventions.

The following conventions provide guidance for interpreting the FAR:

- (a) Words and terms. Definitions in Part 2 apply to the entire regulation unless specifically defined in another part, subpart, section, provision, or clause. Words or terms defined in a specific part, subpart, section, provision, or clause have that meaning when used in that part, subpart, section, provision, or clause. Undefined words retain their common dictionary meaning.
- (b) Delegation of authority. Each authority is delegable unless specifically stated otherwise (see 1.102–4(b)).
- (c) Dollar thresholds. Unless otherwise specified, a specific dollar threshold for the purpose of applicability is the final anticipated dollar value of the action, including the dollar value of all options. If the action establishes a maximum quantity of supplies or services to be acquired or establishes a ceiling price or establishes the final price to be based on future events, the final anticipated dollar value must be the highest final priced alternative to the Government, including the dollar value of all options.
- (d) Application of FAR changes to solicitations and contracts. Unless otherwise specified—
- (1) FAR changes apply to solicitations issued on or after the effective date of the change:
- (2) Contracting officers may, at their discretion, include the FAR changes in solicitations issued before the effective date, provided award of the resulting contract(s) occurs on or after the effective date; and
- (3) Contracting officers may, at their discretion, include the changes in any

existing contract with appropriate consideration.

- (e) Citations. When the FAR cites a statute, Executive order, Office of Management and Budget circular, Office of Federal Procurement Policy policy letter, or relevant portion of the Code of Federal Regulations, the citation includes all applicable amendments, unless otherwise stated.
- (f) *Imperative sentences*. When an imperative sentence directs action, the contracting officer is responsible for the action, unless another party is expressly cited.
